Radiologist Opportunities Kamloops, British Columbia

Royal Inland Hospital is excited to add a passionate and hardworking radiologist to our team. Dual training in Nuclear Medicine and Radiology would be an asset.

The Medical Imaging department at Royal Inland Hospital is a collaborative team of 8 radiologists and 1 nuclear medicine physician who provide services in x-ray, fluoroscopy, ultrasound (Phillips IU22), CT (Siemens Dual Source Flash x2), MRI (1.5T GE), digital mammography, nuclear medicine, bone densitometry and interventional. Our department is fully digital, utilizing McKesson PACS along with Fluency voice recognition dictation software. There is a one year track to full associate.
