

**Lions Gate Hospital/North Shore Medical Imaging
North Vancouver, BC**

Lions Gate Hospital/North Shore Medical Imaging are looking for one full time radiologist to join the group in July 2012. We are a group of ten radiologists that rotate between LGH, Sechelt and a busy private office in North Vancouver. The private office modalities include xray, mammography, ultrasound and MRI.

Hospital work at LGH includes: MRI (GE twin speed), CT (GE 64 slice and 16 slice), ultrasound and echocardiography, fluoroscopy, bone densitometry, and screening mammography. Hospital work at Sechelt includes: CT (GE 32 slice), ultrasound, fluoroscopy and mammography. Call is shared among ten radiologists which includes Angio/Interventional as LGH is a Level Three Trauma centre.

The successful applicant is an enthusiastic radiologist who can interpret ALL modalities including mammography and can perform minor interventions including biopsy, CT guided procedures, IVC filter placement, and percutaneous nephrostomy/biliary drain.

Fellowship training is desirable but not mandatory and this position will involve up to 2 days of weekly travel to other communities.

The ability to work hard, play hard, and enjoy your time off is essential.

Please send a covering letter and CV to simon.bicknell@vch.ca and richard.lupton@vch.ca prior to Feb 1, 2012.
